The Office of Student Activities and Resource Center (OSARC) exists to support the academic goals of the School by providing services and programs designed to enhance and maximize students' co-curricular educational opportunities. All programs and services are designed and implemented with the aim of creating a rich educational environment, infused with the core values of: community engagement and civic responsibility, diversity and cultural competency, innovation and creative thinking, interpersonal and leadership development, and connection to the global network university.
Community Engagement

STUDENT ORGANIZATIONS
With organizations ranging from professional and cultural groups to performing arts and religious and spiritual groups, there is something for everyone. Check out Club Fest where Tandon’s clubs and organizations showcase their missions and programs while recruiting new members at the beginning of each semester. Find out more about clubs and organizations on Orgsync.

EVENTS AND PROGRAMS
Join us for a wide range of Tandon traditions, including the Pian@ Series, Finals Study Breaks, International Student programming, off-campus trips, and discounted tickets!

The HUB (LC 223) is the central student lounge managed by OSARC and open to all students.

Leadership Opportunities

ORIENTATION LEADERS
OLs provide incoming students and their families with a personal introduction and connection to the School of Engineering. They highlight school spirit and tradition, academic expectations and campus life, and promote resources available for student success. OLs are selected in the Spring for both graduate and undergraduate Orientation and the Fall for graduate Orientation only.

THE POLY PROJECT
OSARC's service initiative that works to provide regular and sustained opportunities for students to engage in community service. Students are able to volunteer in the local NYC community and serve in a leadership role as Service Ambassadors.

ENGAGING ENGINEERS
Focused on recognizing the involved, well-rounded student who excels within and beyond the classroom in the areas of Leadership, Service, and Social Justice. Enrollment in the Engaging Engineers program takes place each Fall semester.

MENTORSHIP PROGRAMS
Mentors are a specially selected group of students who provide mentorship, guidance and support to mentees, while promoting and building community at the Tandon School of Engineering. Currently, formal mentorship programs exist for all women students and first-year students.

TRADITIONAL PROGRAMS INCLUDE:
- Welcome Week
- Diversity in STEM Summit
- MLK Week
- Celebrate ENGR Week
- Women in STEM Summit
- Ally Week

STUDENT COUNCIL
Tandon’s Student Councils are elected by students to serve as their primary representatives, advocates, and liaisons to the NYU community. Student Council members survey the student body, support student clubs and organizations, coordinate major campus events, and collaborate with offices and students across campus. Student Council elections take place each Spring for both graduate and undergraduate Councils.

SOECIETY
The SOEcociety Service Learning Experience provides students with an immersive service experience that allows them to better understand personal and social identities, while working to serve a community's needs as future leaders in STEM. Through this experience, students will engage with topics of social justice and leadership while working toward becoming social change agents.
