

Double Graduate Curriculum in Mechanical Engineering by the Polytechnic Institute of New York University (USA) and the Polytechnic of Bari (Italy)

Academic Year 2012 - 2013

The Polytechnic Institute of New York University (NYU-Poly) and the Polytechnic of Bari (Poly-Bari) offer the following international Master of Science program for the academic year 2012 – 2013:

- Double Degree in Mechanical Engineering with specialization in Dynamic Systems and Control (ME-DSC)
- Double Degree in Mechanical Engineering with specialization in Manufacturing Engineering (ME-MFE)

General Requirements for Admission

Students in this program are enrolled at both institutions in the spirit of this international curriculum.

Students graduated from EU institutions: Students should hold a first level degree (of 3 years of full time study) in Mechanical Engineering or equivalent from an EU University with a minimum grade of 100/110 or equivalent in addition to 30 ECTS of graduate level coursework (within the second level degree)¹; the double degree scientific board of Poly-Bari and NYU-Poly will evaluate equivalence, curriculum, and admission.

Students graduated from non-EU institutions: Students should hold a bachelor's degree from an accredited institution (of 4 years of full time study) with a minimum of 'B' (GPA of 3.0 / 4.0) in their major; the double degree scientific board of Poly-Bari and NYU-Poly will evaluate equivalence, curriculum, and admission.

Double Degree Class Schedule

1st term: courses in English are offered during the Spring semester at Poly-Bari: March – June 2013;

2nd term: courses are offered at Poly-NYU during the Fall semester 2013 (September– December 2013) and the Spring semester 2014 (January – May 2014).

Admission procedure

Integrated admission standards, complying to the requirement of both institutions, are in place.

Admission to Poly-Bari:

Students graduated from EU institutions: The student must apply for the admission Test; the admission form and the list of the required documents can be downloaded from:

<http://www.poliba.it/index.php/it/didattica/relazioni-internazionali.html> ;

The admission procedure is the same for all EU students.

¹ 30 ECTS could be obtained at Poly-Bari during the fall semester (October 2012 – January 2013) of the Laurea Magistrale in Mechanical Engineering.

Students graduated from non-EU institutions: The student must apply for the admission to Poly-Bari by sending the '**Domanda di preiscrizione**' to the Italian Embassy (or Italian Consulate) of the Country where he/she is from. The application form and the list of required documents can be downloaded from:

<http://www.poliba.it/index.php/it/didattica/relazioni-internazionali.html>

and

<http://www.studiare-in-italia.it/studentistranieri/1-1.html>.

Admission deadlines changes from Country to Country. Italian Embassy or Consulate will send the Application form of the student to the Poly-Bari. Only applications that will arrive to Poly-Bari by 1st March 2013 will be eligible for the admission. The student has to pass a basic Italian language test at Poly-Bari.

Admission to NYU-Poly:

Students should apply to NYU-Poly following guidelines in: <http://www.poly.edu/admissions/graduate>

Notably, students should have passes GRE and TOEFL exams with satisfactory grades according to NYU-Poly standards.

Application Deadlines

Students should apply to the program by 1st march 2013 by simultaneously applying to both institutions.
