

**Brian Gill**

**Class of '11 Civil Engineering**

Brian Gill joined the NYC Department of Transportation in 2006 as the Engineer-in-Charge administering the \$1 billion reconstruction program for the Manhattan Bridge and was responsible for overseeing all reconstruction activities for replacement of the Lower Roadway, suspender replacement and rewiring of the main cables. Prior to joining the NYCDOT, he had worked as a consultant for 20 years on design, construction and condition inspection of major bridge, highway and building projects which included numerous long span bridges throughout the tri-state region.

Mr. Gill received a Bachelor of Science in Civil Engineering from the University of Maine in 1986, a Master of Science in Construction Management from NYU-Polytechnic School of Engineering in 2011 to further advance goals in efficient use of public funds and improving product quality. He holds Professional Engineering licenses in 4 states including California (with seismic principals) and is a licensed Land Surveyor.

Brian is immediate past President of the Municipal Engineers of the City of New York, is currently an Executive Council Member for Polytechnic Institute Alumni Association, on the Board for 2 other non-profit societies, mentors students at NYU-Polytechnic School of Engineering and for the Brooklyn Technical High School senior design projects. Mr. Gill looks forward to continuing his service for the PIAA as an International Board of Director in the exchange of ideas and implementing actions to strengthen our relation with NYU students, alumni and the global engineering community.
