Set a Google Password

If you wish to use a method other than the web to access NYU Google Apps, such as an email client or certain mobile devices, you must set a separate Google password.

Note: It is recommended, for this purpose, to use a password different from your standard NYU password.

NYU's password requirements:

- Must be 8 or more characters in length
- Must contain 3 out of these 4 elements:
  - Letters A-Z, letters a-z, numbers 0-9, special characters (**!@#$%^&*_-=[\];:,.?

- Must not be a dictionary word, proper name, or person's initials

Enter a new password: 

Confirm your new password: 

CONTINUE

Please note! After changing your Google password, you may also need to update password information previously saved in your mobile device (e.g., iPhone, iPad, Android, Blackberry), web browser, or desktop email program (e.g., Outlook or Thunderbird). See Services Affected by Password Changes
