NYU-Poly Hosts Brooklyn Finals in FIRST Lego League Robotics Competition

What: Thirty-seven middle and high schools will compete in the Brooklyn finals of the New York City FIRST Lego League Championship competition, including thirteen teams from central Brooklyn. Students ages 9 to 14, working in teams, are given challenges based on a real-life problem - and with the help of adult mentors - they research, design, build and program robotic creations to carry out a series of missions on table-top playing fields.

Why: Through this competition, students develop an understanding of engineering and programming concepts and the role of technology in our society. They learn to use the Internet and other research resources to study challenge topics, make presentations about their research results, and test their robotic creations in a setting of friendly competition.

When: Saturday, January 10, 2009

9:30 a.m. – 3:30 p.m.

Where: Polytechnic Institute of NYU

Six MetroTech Center (at Jay Street, downtown Brooklyn)

Gymnasium

Excellent Photo Op and Interviews with Students.
