Post Assessment Survey

Content

1. What is a pulley? What is the purpose of using a pulley?

2. Draw the way pulleys can be used to help lift the weight drawn below.

   ![Diagram of pulley system]

3. What happens to the string when pulleys are added to them?

Evaluation

1. What gets you excited about science?

2. If you were given the chance to create this lesson which method would you use:
   a. Lecture
   b. Textbook reading
   c. Movie
   d. Hands-on activity
   e. Researching on the internet
3. Do you think Robotics can be helpful when used to collect data in science experiments?
   a. Yes
   b. No
   c. Unsure

4. What did you like / dislike about the lesson?

5. What did you like / dislike about the Robotics device?

6. Please rate this lesson using the following:
   a. Strongly disliked
   b. Disliked
   c. Liked
   d. Strongly liked

7. Do you think the use Robotics to collect data:
   a. Made the lesson easier
   b. Made the lesson harder
   c. Made no difference in the lesson
