

NAME: \_\_\_\_\_

## Pressure Experiment

### Post-Evaluation

1. Pressure is
  - a.) force
  - b.) electric current
  - c.) force over area
  - d.) area over force
  
2. What does pressure depend on?
  - a.) force only
  - b.) area and speed
  - c.) force and area
  - d.) mass and acceleration
  
3. Applying the same force over a smaller area will
  - a.) have no effect on the pressure
  - b.) make the pressure equal to zero
  - c.) increase temperature
  - d.) increase the pressure
  
4. To increase pressure, I should
  - a.) decrease force
  - b.) increase force
  - c.) increase density
  - d.) increase temperature
  
5. Engineering is fun
  - a.) true
  - b.) false
