

VETERAN ENTREPRENEURSHIP TRAINING PROGRAM

Developed by the NYU Tandon Future Labs and supported by the Brooklyn Chamber of Commerce and New York Assemblyman Joseph Lentol, the Veteran Entrepreneurship Program is a pioneering program for veterans and their spouses who want to transition into technology and entrepreneurship.

About the Program

Join the competitive Veteran Entrepreneurship Training (VET) Program for veterans and their spouses who want to transition into technology and entrepreneurship. Learn from startups and industry leaders via hands-on experiential learning, mentorship, and a capstone project. Our curriculum combines business and tech to create a hybrid platform for professionals to team up with leaders from New York's entrepreneurial and technology ecosystem. Our 12-week curriculum leverages your goals into career opportunities and potential new ventures. Upon successful completion, participants will earn a VET Certificate from the NYU Tandon School of Engineering Incubators.

Application Requirements

Applicant must be a Military Veteran with a DD-214 or be the spouse of a Military Veteran, and have a demonstrated interest in and passion for entrepreneurship and technology.

Certificate Requirements

Participants seeking a VET Certificate must complete all coursework and the capstone project.

Program Timeline

The program will take place over 12 weeks.

Application Deadline: March 2, 2018

Classes Begin: March 19, 2018

Demo Day: June 7, 2018

Curriculum

The 12-week program is split in three parts: a four-day intensive onboarding week followed by 10 weeks of one day per week in-class lectures and outside of the class field venture validation. The program concludes in week 12 with two showcases: an internal invite-only presentation to the stakeholders of the program and a public Demo Day.

Program Costs

Each student admitted into the program will be fully subsidized for all course fees, books and pre-approved startup expenses.
