STREET
TEAM

This is your chance to lead within the Tandon Undergraduate Student Council and represent the student community at the NYU Tandon School of Engineering. We believe in uniting the diverse community of students at NYU Tandon, advocating for student needs, and creating relevant programming for the student body. TUSC strives to work with the Tandon community to listen to their needs and accommodate as best as they can.

Please note that the following descriptions are related to the TUSC structure for the 2019-2020 academic year. Summaries are NOT a complete list of each member's responsibilities as part of the student council. All interested candidates must read both the Constitution and Election Policies attached to the Election Application located on NYU Engage.

The Executive Board ✨

PRESIDENT

I oversee the entire Undergraduate Student Council to work on initiatives, programming and advocacy for students. I represent Tandon's undergraduate population at a larger university scale and work directly with administration to express student concern.

VICE PRESIDENT

I assist the president in every way possible and help oversee the directors on the council.

SECRETARY

I maintain records of all Student Council agendas and correspondence as well as make sure all rules are being followed. I also record every student council meeting and activities going on.

The Executive Board ✨

TREASURER

I am the financial advisor to the Student Council. I keep necessary required documentation of all student council purchases and supplemental funding given to recognized student organizations.

CHIEF OF STAFF

I assist the president in every way possible and help oversee the directors on the council.

DIRECTOR OF PROGRAMMING

I organize and direct programming events hosted through the Student Council, as well as oversee our wellness, marquee, and student organization club liaison commissioners.

The Executive Board ✨

DIRECTOR OF STUDENT SUCCESS

I oversee the student success team and work on initiatives to help students be more successful. This includes developing programs to provide students with more opportunities and easier access to them.

DIRECTOR OF MARKETING

I am responsible for ensuring the Tandon community is aware of all events and programs that TUSC offers. I design and develop marketing content including social media posts, flyers, brochures, and more. I also oversee and work closely with the marketing commissioner.

SENATOR

I represent the Tandon student body in all relevant university wide student government bodies. That means that I am the main representative of the NYU community at-large. The most important of these bodies are the Student Senators Council, the Student Government Assembly and the University Senate. With Tandon's unique status within NYU, representation on these bodies is paramount to the successful continued relationship between Brooklyn and Washington Square.

Commissioners ✨

ALTERNATE SENATOR

The Alternate Senator works alongside the Senator. The alternate helps represent Tandon and the student body.

HEALTH & WELLNESS: PROGRAMMING

I organize health and wellness events, such as my Happy Days series, hosted by TUSC. My overall goals are to promote self love, taking care of yourself and others, and create an increase of health, wellness, and happiness in the NYU Tandon community.

MARQUEE EVENTS: PROGRAMMING

I organize and come up with marquee events hosted by TUSC such as the finals distress events. As part of the programming branch, I help plan and execute other events hosted by programming.

Commissioners ✨

STUDENT ORGANIZATION CLUB LIAISON: PROGRAMMING

I am responsible for being the intermediate step between all clubs associated with Tandon. I try to support clubs on campus through collaboration events and event promotion.

DIVERSITY: STUDENT SUCCESS

I work with the student success to ensure that diversity and inclusion initiatives are taken by the council. I work with diversity clubs to ensure they have funds and resources for their events and programs. I help plan and run events hosted by Student Success at Tandon.

FACULTY/ALUMNI AND STUDENT LIAISON: STUDENT SUCCESS

I organize events to help students to build strong connections with faculties outside of classrooms, and my goal is for students to have access to more opportunities from faculties and be more comfortable around them.

Commissioners ✨

SERVICE: STUDENT SUCCESS

As the service and civic engagement commissioner, I serve to plan and organize events where the student body can help the surrounding New York City community. Examples include awareness walks, blood drives, making food for the homeless, etc.

FIRST YEAR LIAISON: STUDENT SUCCESS

I represent the interests of the freshman class in TUSC. Through assisting the organization of initiatives like the First Year Cohort, I help foster a more interconnected first year student body.

MARKETING COMMISSIONER

I assist the Director of Marketing in creating marketing material for TUSC sponsored events as well as oversee our social media accounts.
